

The Future of Research Starts Here

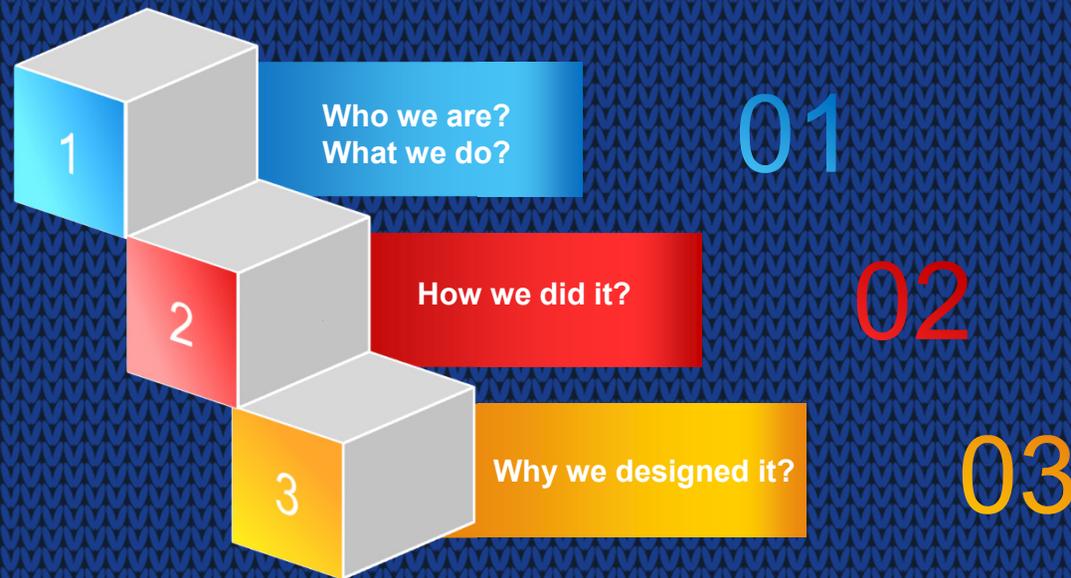

www.edu.global

Your One-Stop
Research Engine

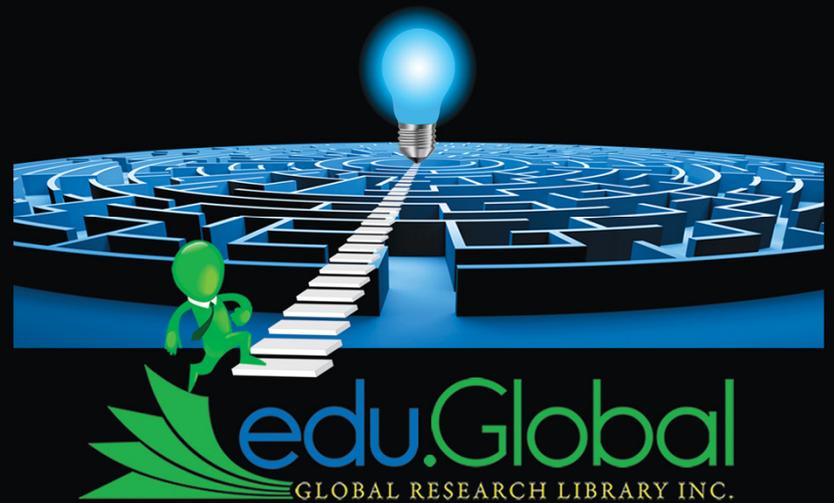

This handout booklet is to answer the following questions:

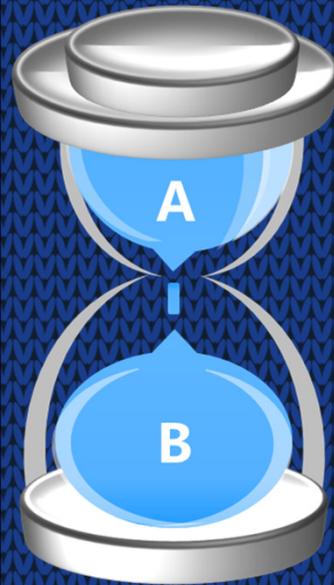

Doing Complex Research?

Using a traditional search engine.

Using the research engine at <https://edu.global>

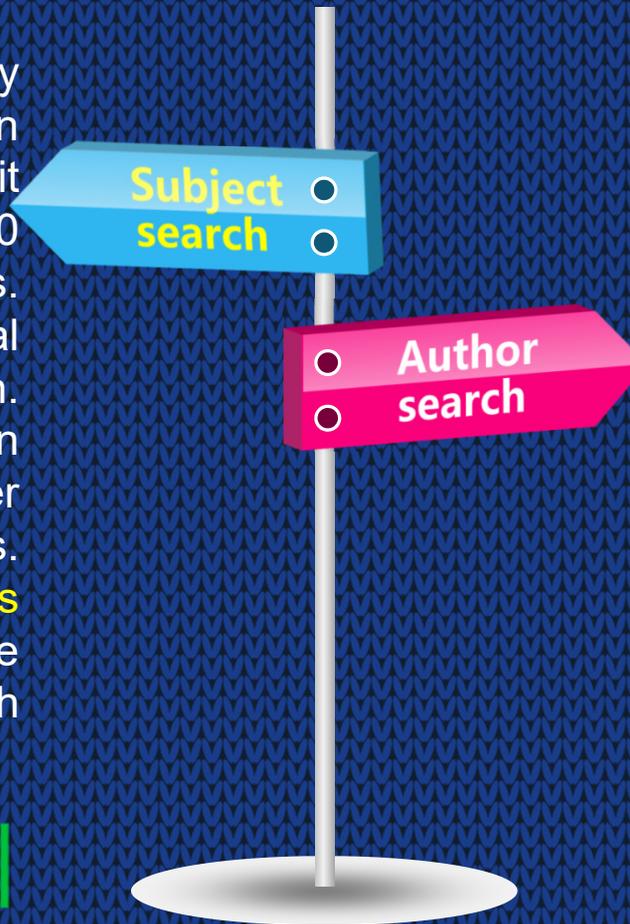

With our **ultra-efficient research engine**,
you can research any subject and find just what you need...
in a matter of seconds!

How we did it?

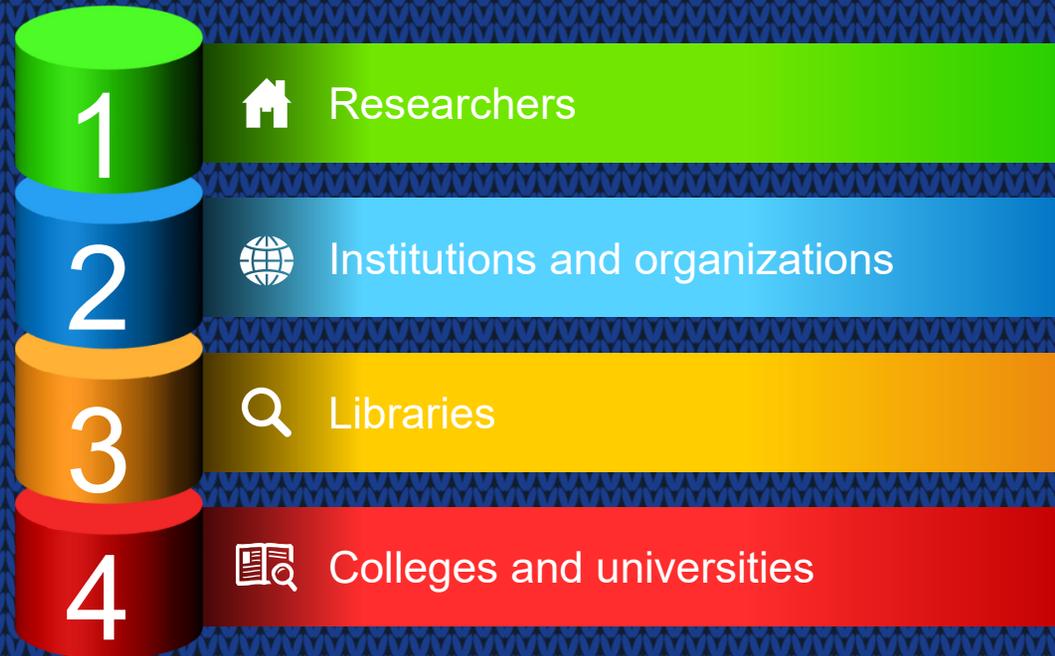

When you search on a very broad subject, and then click on **Show More** under **Subjects**, it brings up as many as 5,000 subcategories and keywords. These words trigger the natural associative power of your brain. This inborn narrowing-down process takes you much faster and deeper to precise results. **Repeat the same process as needed.** In just a few simple steps you will be able to reach the very best results.

Unique searchability!

When a student or library member finds an interesting book or article, simply click on the author's name and instantly find other articles and books he/she may have written, no matter where in the world they were published.

We are designed for:

What we have to offer:

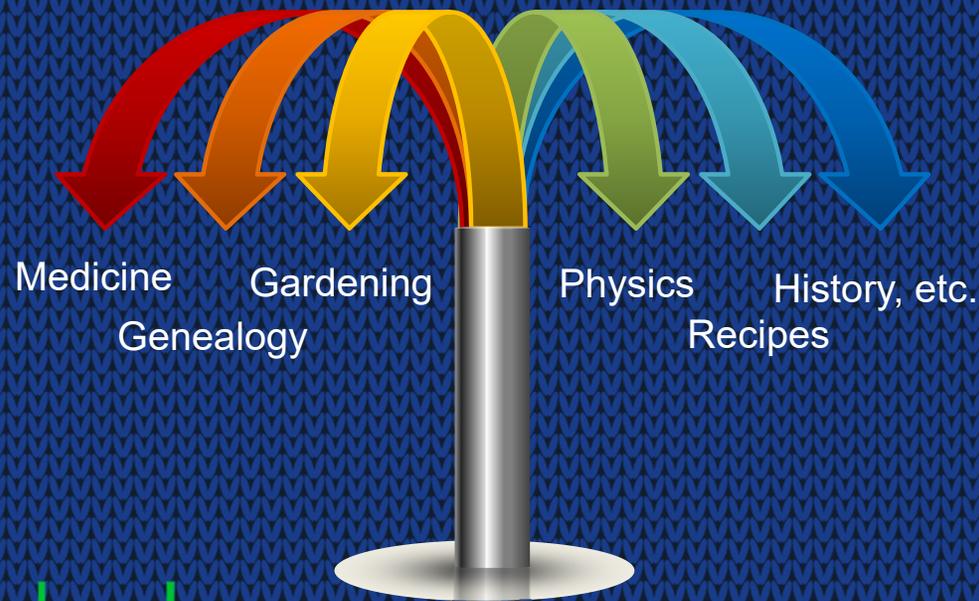

-  **A** Every subject and topic.
-  **B** 55 million resources: books, maps, articles, etc.
-  **C** 14,000 Journals, over 7 million **full-text journal articles**.
-  **D** Books and resources in a multitude of languages.

Once your group subscribes, all downloads are free¹.

We've carried out millions of searches so you don't have to!

We've assembled over 50 million resources so far
and are steadily adding more every week.

Can't find what you are
looking for?

Simply go to **Feedback and Suggestions**
and we'll assign a researcher for it, ASAP!

Cooperation -- we all win.

Perhaps you possess digitized resources that are not well-known.

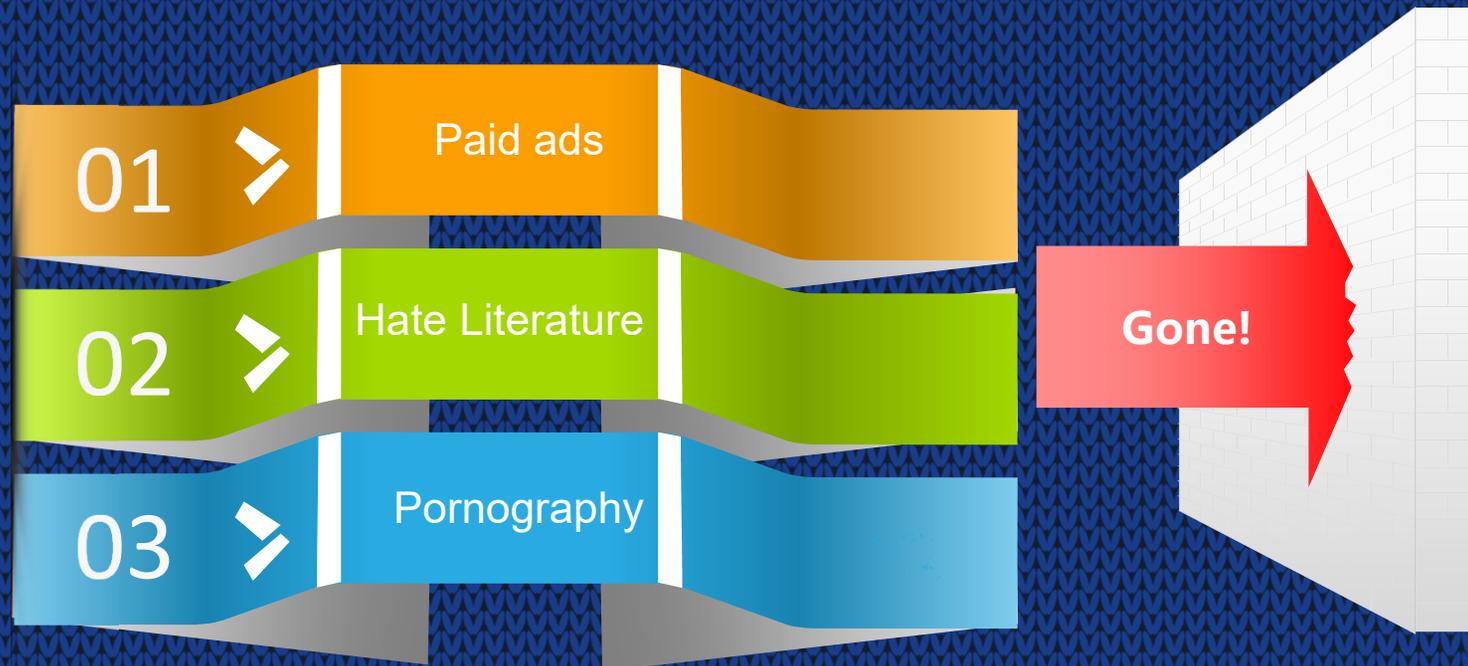

We don't copy your resources or eBooks, we just direct the world to your doorstep.

If you would like us to lead others to your Open Access content, just let us know (Email us at support@edu.global). We can bring your content to the world.

It's a win-win-win scenario because the world is our beneficiary.

There are a few things you won't find on our website:

We believe in **OPEN** **ACCESS**

“By making my PhD thesis Open Access, I hope to inspire people around the world to look up at the stars and not down at their feet; to wonder about our place in the universe and to try and make sense of the cosmos.”

“Anyone, anywhere in the world should have free, unhindered access to not just my research, but to the research of every great and inquiring mind across the spectrum of human understanding,”

-- Stephen W. Hawking

Institutional fee structure for our introductory year -- 2017:

	Active Members or Users	Annual Fee
01	10 - 500	Negotiable*
02	501 - 1000	\$2,000
03	1,001 - 25,000	\$3,000
04	25,001 - 50,000	\$4,000
05	50,001 - 150,000	\$5,000
06	150,001 - 500,000	\$10,000
07	Over 500,000	Write for quotation

Thanks!
